SUMMARY

Recent Public Health Sciences graduate with concentrations in Biology and Chemistry and experience in clinical care, public health, and research. Skilled in patient care, clinical procedures, health education, and interdisciplinary collaboration. Passionate about sexual and reproductive health, maternal health equity, and serving underserved communities, with aspirations of becoming an OB/GYN physician.

PROFESSIONAL EXPERIENCE

Clinical Care Specialist, Michigan Urgent Care

February 2026 - Present

- Performed phlebotomy, specimen collection, point-of-care testing, drug screens and occupational health screenings while maintaining chain-of-custody procedures.
- Assisted with diagnostic X-rays and ensured compliance with radiation safety standards.
- Administered injections, immunizations, and medications under provider supervision.

Medical Assistant, LCMC Health

August 2024 - August 2025

- Deliver high-quality clinical care, including vital sign collection, medication administration, exam prep, and post-visit follow-ups.
- Apply strong knowledge of medical terminology to update charts, interpret instructions, and explain procedures to patients.
- Provided compassionate patient support during visits, ensuring comfort and understanding of care procedures.

Labor & Love

February 2025 - May 2025

- Support maternal health initiatives focused on reducing Black maternal mortality through education, outreach, and self-advocacy campaigns.
- Assist in organizing community workshops and panels on reproductive wellness, prenatal care, and healthcare equity.
- Collaborate with local organizations and care teams to distribute culturally competent resources for expectant mothers.

Intern, Louisiana Department of Health

June 2024 - August 2024

- Designed and led a statewide breastfeeding campaign for World Breastfeeding Week, increasing maternal health awareness via social media.
- Partnered with interdisciplinary teams—including Medicaid, maternal health consultants, and public health professionals—to align messaging with policy goals.
- Adapted project deliverables in real time to meet evolving grant guidelines.

Research Fellow, UC San Diego

June 2023 - August 2023

- Performed molecular techniques, including DNA extraction and polymerase chain reaction (PCR), to detect pathogen presence and confirm species classification.
- Recorded and interpreted experimental data to support ongoing studies in vector control and public health research.
- Gained hands-on experience in laboratory safety protocols, data management, and interdisciplinary research collaboration.

Black Public Health Influencer Fellow, ETR

October 2022 - June 2023

- Created a digital health education campaign focused on sexual and reproductive health for Black women.
- Trained in human-centered design, digital strategy, and culturally relevant communication.
- Presented the campaign to public health leaders at the annual BPHI retreat.

EDUCATION

Xavier University of Louisiana

New Orleans, LA

Bachelor of Science in Public Health Sciences

- Concentrations in Biology and Chemistry
